SUBJECT Chinese Communist Military Transport and Military Construction, Hainan

NO. OF PAGES 1

PLACE ACQUIRED [REDACTED]

NO. OF ENCLS. (LISTED BELOW)

DATE OF INFO [REDACTED]

25X1A

SUPPLEMENT TO REPORT NO. 25X1X

1. Between May and the end of August 1951, a large part of the military highway from Yulin to Sanya was repaired by the 3 Army Engineer Group.
2. Warehouses have been built at Sanya, and in early September the Central and South China Military Area headquarters allocated JYP 80,000,000 for the reconstruction of Sanya Airfield. On 20 August military transport was resumed on the section of railroad between Sanya and Shihlu (石碌)¹.
3. At Yulin, an underground operations center was under construction as of August 1951, patterned after one at Hants'arwei (海参威)².

25X1A 1. [REDACTED] Comment. Probably Shihlu (石碌) is meant here. If so, this would mean that virtually the entire length of this line - which comprised almost all railway trackage on Hainan as of early 1950 - was functional as of August 1951.

25X1A 2. [REDACTED] Comment. Presumably Vladivostok.
